

# Tonyo Godson Pupere

I am a proactive, smart, motivated software engineer and leader with good development experience. I have joined in the development of software solutions for business use cases from conceptualization to deployment. I am a proficient Android Developer. Software I have built includes Business Tech solutions such as Paysure Mobile, Aqua, Piqtiles, etc.

## Experience

**3LINE CARD MANAGEMENT**, Lagos — *Software Engineer*

SEPTEMBER 2022 - DATE

- Experience building Android apps with Kotlin/Java using the Android SDK.
- Good understanding of the android app lifecycle and common design patterns (MVVM, MVP) for building and structuring apps from data layer all the way up to the UI.
- Strong understanding of REST APIs, JSON, HTTP Requests, Retrofit
- Experience working with ROOM Database.
- Familiar with Jetpack Components
- Good understanding of Dependency Injection and libraries like DAGGER HILT
- Experience with using version control like git

**DECAGON**, Lagos — *Software Engineer*

OCTOBER 2019 - AUGUST 2022

- I am responsible for translating code into user-friendly applications.
- I collaborate with other members of the team to develop functional mobile applications while working in a fast-paced environment.
- I work with application programming interfaces (APIs) to support mobile functionality while keeping up to date with terminology, concepts and best practices for coding mobile apps.
- I contribute to the design, testing, releasing and support of the application.

## Education
